

Surety Bond Information

Notaries public are required to obtain a \$10,000 surety bond and file it at the office of the county clerk in the county where the notary will be commissioned. The company from which you receive the surety bond must be licensed to do business in Michigan. A link to licensed surety bond companies in Michigan is available on our Web site at www.Michigan.gov/sos. The cost of surety bonds varies — generally between \$50 and \$100. See our Web site for information on obtaining a surety bond.

A surety bond protects the public from a notary's misconduct or negligence. A surety bond does not protect the notary. "Liability" or "errors and omissions" insurance may be purchased to protect an individual notary.

Oath of Office

The oath of office is an oral or written statement taken at your county clerk's office when you file your bond. For Michigan residents, this must be in your county of residence. Out-of-state applicants appear in the county of their principal place of business. After the oath is administered, the clerk will attest that you swore to the statement.

Length of Appointment

Notary public commissions expire six (6) years from your next birthday at the time of commission issuance.

Renewing Your Commission

There is no automatic renewal process. You must apply for a new commission when your current commission expires. It is your responsibility to apply for a new commission no more than 60 days prior to the expiration date of your present commission. If you are a licensed attorney in Michigan, you will receive a reappointment application form approximately 90 days prior to your commission expiration.

Becoming a Michigan Notary Public

**Office of the Great Seal

The Role of the Michigan Notary Public

A notary public is an officer commissioned by the Secretary of State to serve as an unbiased and impartial witness. The most common function of the notary is to prevent fraud by attesting to the identity of a person signing a document. Notarization on a document certifies that the person whose signature is entered on the document appeared before the notary, established his or her identity, and personally signed the document.

Notary Responsibilities

Every citizen appointed as a notary public has a duty to learn and understand the notary laws. Michigan notaries are required to conform to the Michigan Notary Public Act (2003 PA 238), as amended. The current law, with the latest amendments effective April 1, 2007, is available at the Michigan Legislature's Web site, www.legislature.mi.gov.

To become commissioned as a Michigan notary public you must:
